IDAHO SPF GRANT NOW OPEN!

The Idaho Office of Drug Policy (ODP) is accepting applications for FY2016 Strategic Prevention Framework Grants (SPF).

The SPF grant has two goals:

1. Reduce substance abuse-related problems in communities.
2. Build prevention capacity and infrastructure at the community level.

The deadline for submission of completed applications is 5:00 PM MST on Friday, May 29, 2015. Late proposals will not be accepted.

LEGISLATIVE UPDATE

H108

The Senate floor unanimously passed H108. The Governor signed the bill on March 23.

H108 will give prescribers and pharmacists the ability to prescribe Naloxone to third parties, such as family members. It also addresses civil and criminal liability

issues. In essence, it will allow a family member to go to a pharmacy and receive Naloxone if they thought there was a possibility their loved one might overdose on an opioid.

Read the bill text [here](#).

S1146aa

On March 24, the Senate voted 22–12 to pass S1146aa to the House State Affairs Committee. On March 30, the House State Affairs committee failed the bill on a tie 8–8 vote. On April 1, the committee voted to reopen the matter for discussion and will vote on April 2, 2015.

S1146aa seeks to decriminalize the possession or use of cannabidiol (CBD) oil, if the CBD meets requirements set forth in the bill.

Read the bill as amended in the Senate [here](#).

S1156

On March 24, the Senate unanimously passed S1156. The bill is currently awaiting a hearing in the House State Affairs committee.

S1156 would give the Department of Health and Welfare the authority to administer an Expanded Access Program (EAP) for the drug Epidiolex®. Epidiolex® is 100% cannabidiol (CBD) oil that is currently undergoing FDA clinical trials. The EAP will provide those suffering from intractable epilepsy who have not responded to traditional therapies the ability to obtain the drug at no cost. The EAP will contribute to the body of research on treatments for intractable epilepsy.

NURTURING PARENTING TRAINING

Who: Current and newly recruited Nurturing Parenting Program Facilitators

What: 3–Day Training conducted by Dr. Stephen J. Bavolek, Ph.D. (program author) including practical, interactive "how to" sessions with Idaho trainer Heather Kemp (National Trainer/Consultant)

Where: Spring Hill Suites, Boise

Cost: No cost for Block Grant subrecipients

When: April 21, 22, 23, 2015

Why: A wonderful opportunity to: understand the philosophy of Nurturing Parenting and how to implement and facilitate the Nurturing Parenting Programs; update skills and materials; and network with other Idaho Nurturing Parenting providers from across the state.

For further information or questions, contact: marianne.king@odp.idaho.gov

REALITY PARTY FOR PARENTS

Many adults feel that teen drinking and partying is a rite of passage. The fact is that teen parties are not the same as they once were. Learn about the current realities and why and how adults can change social norms.

Participants will tour a typical home set up to portray a teen party with local youth acting and voicing concerns expressed by teens and young adults.

Date: Saturday, April 18

Time: Tours start every 1 hour between 1:00 PM – 6:00 PM *

*Registration is required

Place: Forward Movement Training Center
125 W. Taylor Ave., #600 – Meridian

Click [HERE](#) to register.

For more information, see the [program flyer](#).

ATTEND ICADD

Attend the 31st annual Idaho Conference on Alcohol and Drug Dependency. The conference is intended for substance abuse and dependence educators and professionals in behavioral health care, criminal justice and recovery support to gain training and education.

When

Pre-conference Workshop May 18, 2015

General Conference May 19 – 21, 2015

Location

Boise State University – Student Union Building

Continuing Education Credits

A maximum of 24 CE hours are available.

For more information

PROGRAM SPOTLIGHT: NEZ PERCE TRIBE

The Nez Perce (NP) Tribe's Students for Success Program has been in existence since 1995 and is in the NP Tribe's Education Department. The Program Director is Abraham Broncheau and the program is staffed by three full-time staff and one part-time.

Current projects include Good Health and Wellness in Indian Country, Tobacco Control, Tribal Youth Program Case Management, Life Skills Training, and Traditional Games (physical activity).

Students for Success (SFS) aims to provide and maintain a safe and healthy school environment, prevent the use of alcohol and other drugs and violence through comprehensive prevention programming and provide early intervention for children and youth at risk. SFS also strives to promote cultural identity and wellness with the notion in mind that "culture is prevention". SFS provides youth with the opportunities for self-growth and promotes student achievement for individuals to become contributing members to the tribe, government and their communities.

Chloe Thompson participated in the 'Not A Replacement' anti-smoking campaign

Students for Success has also established and maintained a strong connection between the schools and communities in the area and will make it a priority to sustain these relationships to further enhance our ability to change the cultural norms associated with substance abuse, tobacco, and health and wellness.

DRUG TRENDS: POWDERED ALCOHOL

Powdered alcohol, otherwise known as palcohol, was recently approved by Congress despite concerns from both political parties.

Palcohol is an alcoholic beverage that has been made into a powder, and which can be added to any liquid to make a fully alcoholic beverage. It can retain the specific flavor of the particular type of alcohol that it's produced from, such as vodka or

rum, as well as mixed drinks such as a margarita. It's easily transported in bags or pouches.

Lipsmark, the company that makes palcohol, until recently advertised the product as an option to defeat alcohol prohibitions at sports stadiums, and as a way to get drunk instantly by snorting the powder. After criticism, the company removed the statements from its website.

Despite clearing a federal prohibition, palcohol must now be permitted at the state level, where it faces tough questions regarding safety, abuse potential, and the need for such a product.

MISSION: The Idaho Office of Drug Policy leads Idaho's substance abuse policy and prevention efforts by developing and implementing strategic action plans and collaborative partnerships to reduce drug use and related crime, thereby improving the health and safety of all Idahoans.

VISION: The Idaho Office of Drug Policy envisions an Idaho free from the devastating social, health, and economic consequences of substance abuse.
